

KUNAL HEMANT PASAD

Data Analyst | Data Analytics | SQL | Data Visualization | Statistical Analysis

60 Paterson St, New Brunswick, NJ 08901

📞 848-391-7620 ✉ kunalpasad6523@gmail.com 🌐 [Portfolio](#) [Linkedin](#) [Github](#)

EDUCATION

Rutgers, the State University of New Jersey, New Brunswick, United States

Expected: May 2027

Master of Science in Computer Science

GPA: 3.83/4.0

Relevant Coursework: Database Systems, Machine Learning, Data Analytics, Distributed Systems

Sardar Patel Institute of Technology, Mumbai, India

Dec 2021 – May 2025

Bachelor of Technology in Computer Engineering

GPA: 8.62/10

Relevant Coursework: Data Structures, Operating Systems, Computer Architecture

TECHNICAL SKILLS

Languages: Python, SQL, R

Data Analysis: Pandas, NumPy, Exploratory Data Analysis, Data Cleaning, Feature Engineering

Visualization & Tools: Tableau, Matplotlib, Excel, Dashboard Development

Statistics: Hypothesis Testing, Statistical Analysis, Probability Distributions

Data Techniques: ETL Pipelines, Data Modeling, Time-Series Forecasting

Databases: MySQL

PROFESSIONAL EXPERIENCE

EternIQ

Jan 2025 – May 2025

Data Analyst Intern

Mumbai, India

- Built scalable data ingestion pipelines processing 100K+ records with validation, normalization, and enforcement
- Designed structured preprocessing workflows improving dataset quality and reducing inconsistencies across large-scale datasets
- Developed analytical evaluation frameworks on 1K+ outputs identifying performance trends and enabling data-driven decision making
- Optimized API-integrated data systems enabling real-time analytics and improving efficiency across applications

Mukesoftware IT Consultants

Jul 2023 – Feb 2024

Full Stack Web Developer Intern

Mumbai, India

- Optimized SQL queries and indexing strategies reducing database response latency by 30% in production systems
- Processed and managed 50K+ relational records ensuring efficient retrieval and improved backend performance
- Implemented data validation and integrity checks enhancing consistency and reliability across structured datasets

PROJECTS

Sales Forecasting & Revenue Prediction System | Python, Pandas, scikit-learn, Tableau

Feb 2026

- Built time-series forecasting pipeline with dynamic features improving prediction accuracy by 12% over baseline models
- Engineered lag variables and rolling windows enabling real-time revenue trend analysis for forecasting insights
- Developed Tableau dashboards visualizing demand trends and KPIs enabling revenue-driven business decision making

Customer Churn Prediction & Retention Analytics System | Python, scikit-learn, XGBoost, Pandas

Dec 2025

- Developed classification models on 50K+ records achieving 0.91 ROC-AUC for accurately predicting customer churn behavior
- Engineered 20+ behavioral features improving recall of high-risk customers by 15% using optimized thresholds
- Performed segmentation and cohort analysis identifying churn drivers and enabling targeted customer retention strategies

Mutual Fund Data Pipeline & Portfolio Performance Analysis | Python, Pandas, SQL

Aug 2025

- Built ETL pipeline processing 5K+ financial records ensuring data cleaning, normalization, and consistency
- Computed financial metrics including returns, volatility, and risk-adjusted performance for investment analysis
- Improved processing efficiency by 25% through optimized pipeline design and automated data quality checks reducing errors

MindSync – AI Knowledge Assistant | Python, FastAPI, Vector Search

Oct 2025

- Designed data retrieval pipeline with ingestion, chunking, and semantic search enabling efficient analytical query workflows
- Reduced hallucinated responses by 25% through context-aware data processing improving reliability of analytical outputs
- Optimized query performance reducing latency by 30% using caching and efficient data selection strategies
